WELCOME TO THE EXCITING WORLD OF TIPIS

The Last Word In Tipi Craftsmanship

No one makes tipis quite like we do. Each one is handmade to order in our factories. And each one reflects the unique qualities that set us apart. Traditional craftsmanship and innovative design are always combined with relentless attention to detail. Available in a choice of three colours, our tipis will blend effortlessly into your outdoor space. We've built our reputation on making the finest tipis available. For everyone who values the highest standards of quality and workmanship, there is simply no better choice.

We specialise in designing and manufacturing a range of giant tipis for venues, glamping sites, educational settings, hospitality groups, and individuals wishing to launch their own tipi rental business. We manufacture every element inhouse at our Tipi HQ in the heart of England, and every finished product is stamped with the Made In Britain seal of approval. Having total control over our production process is of upmost importance to us and it also allows us to recognise that every customer and outdoor setting is unique. We are passionate believers in bespoke solutions for sites where the vision exists beyond our tipis.

Since 1986, we have hand-crafted outdoor structures that stand the test of time. We know what it takes to create a product that performs week on week, month after month, year after year. However harsh the weather conditions are, we are the best in the business at engineering a product you can rely on.

Superior Design - Unrivalled Quality - Exceptional Support

Our tipis can be seen in the best locations nationwide and internationally, including:

Our Fabric

We use the best outdoor fabric available on the market in the construction of our tipis that is waterproof, breathable and most importantly, fire retardant. The Coated Campshied fabric meets all international fire regulations to provide a safe outdoor cover for you and your guests. It acts as the perfect protection against the sun during the heat of the summer, and the cold of the winter. It is coated on the outside making it easy to clean, ensuring longevity of your investment. We offer three colourways in our tipi range to enable our customers the flexibility of personal preference. For further information about our revolutionary canvas, please see Page 35

Our Poles

The strength of our poles are unmatched. We source them from the coldest forests in North Scandinavia. Why? Because no other location grows stronger spruce. The colder the forest, the slower-growing the trees thus making them late maturing and of world-class quality. The structural integrity of our North Scandinavia poles beats any UK-grown timbers and ensures our tipi framework is the strongest on the market, confidently being able to withstand all wind and weather conditions.

WHY CHOOSE THE TIPI COMPANY?

At our core, we are not just a manufacturing business; we are a family. For three generations, our roots have been firmly planted in the soil of craftsmanship and dedication, right here in Britain. What sets us apart is the heart and soul that we infuse into every product we create.

Being a family-run business means that we prioritize relationships, not just transactions. We take pride in the personal touch we bring to every interaction, treating our customers and employees as extensions of our own family. Your trust in us is the cornerstone of our success, and we work tirelessly to earn and maintain it.

In a world of mass production, we stand as a testament to the enduring power of family values and craftsmanship. When you choose our products, you're not just buying a product; you're becoming a part of our family. Our dedication to excellence, attention to detail and unwavering commitment to customer satisfaction are all woven into the fabric of who we are.

The Tipi Club

Our commitment extends beyond production; we prioritise robust after-sales support that you can rely on. We're dedicated to ensuring your satisfaction and product longevity, providing peace of mind and unwavering reliability for your business. It is for these reasons that we have launched **The Tipi Club** – a site dedicated to After-Sales support, specifically for Long Term Tipi Installations. Including everything you need to take the best care of your tipis - quick access to resources, maintenance tips, and expert assistance at the click of a button.

Fancy a chat? Count on our tipi experts for troubleshooting, maintenance and product assistance around the clock. We also offer a swift and reliable Repairs Service, conducted inhouse by the same team who have made your tipis, ensuring your investment continues to stand tall for many years to come.

OUR TRUSTED BRAND PARTNERS

We have partnered with the best outdoor suppliers in the industry to provide our clients with a range of premium products and services, inline with our values and standards. Whether you need impressive lighting, effective heating or finance options to support your investment, we have tried and tested brands that you can count on. We pride ourselves on offering the complete solution: before; during and after your investment. From our complimentary onsite consultations, right the way through to our dedicated After-Sales service including repairs, maintenance and storage – we're with you every step of the way.

Lighting

Elevate your tipi's ambience with transformative lighting. We have teamed up with the UK's No.1 trusted electrical supplier for the events industry to create a captivating atmosphere inside our tipis. Fairy lights, apex lighting and uplighters - we provide everything you need to create the wow factor.

Heating

Using a heater inside our tipis ensures comfort during cooler summer nights and throughout the winter - allowing year-round outdoor events. Our partnership with the UK's leading heating supplier for temporary structures ensures a warm and cosy atmosphere regardless of the weather outside.

Wood-burning Stoves

Offer rustic charm and warmth within your tipi with the help of a wood burning stove. The perfect addition to warm a glamping tipi, or a stunning centrepiece for a larger formation, we now offer environmentally friendly wood-burning stoves that are Ultra-Clean Burning, courtesy of ApplePie Stoves.

Matting

Choosing the most durable flooring for your tipi will ensure the longevity of your investment, event after event. We supply incredibly strong polypropylene matting that is hardwearing and jet-washable, in partnership with the UK's leading supplier of durable high-quality matting for the outdoor events industry.

Finance

We have formed a dynamic brand partnership with a leading finance company that specialises in funding quirky assets. Together, we can provide you with enhanced financial solutions and a brighter future for your business.

Insurance

Delivering an "all risks" cover at an affordable price, our strategic brand partners, Blythin & Brown Insurance Brokers, can provide you with comprehensive protection, peace of mind and unmatched value.

CUSTOMER JOURNEY

From inception to completion and beyond, our experienced team will be on-hand to create a tipi space full of potential for your venue.

1. Start Your Tipi Journey

The more information you can share with us about your goals, the better. We start all of our customer journeys with a friendly one-to-one consultation with our in-house tipi experts.

They can give you inspiration about which tipis would be best-suited for your site and give you some pointers to take home to think about, including indicative pricing and space required.

2. Complimentary Site Visit

During our visit, we will give you honest advice about key factors to consider when we are designing your permanent tipi formation. Our specialists will come to you for a complimentary site visit, measuring out the land and discussing any hurdles we may need to overcome with your permanent tent. With our guidance, you will then be equipped to decide on your favourite design and layout, considering all the practical elements needed.

3. Order Confirmation

Once we've agreed on the detail, a part-payment of 25% of the order is required to confirm your production timeslot. At this stage we can also give you an estimated completion date.

On receipt of a part-payment our team will contact you to share marketing literature to enable you to prepare the promotion of your new venture.

4. Production

The ball is rolling! Our expert team of woodworkers, metal fabricators and canvas technicians at our our Tipi HQ in the heart of England will start creating your tipis using the strongest wood sourced from North Scandinavia, and the best waterproof and flame-retardant outdoor coated canvas available on the market.

6. Installation

We offer a full start-to-finish Installation Service, to take a huge amount of stress away from your shoulders. Our team of Tipi Installation Experts will build a raised wooden platform that is shaped to the formation of the tipis you have chosen. On top of this, your tipis will be built and firmly secured. With this method, we can deliver a totally weatherproofed structure that can withstand a complete range of weather over many years to come. The fixing mechanisms we use are dependent on your site. But, whether you have a field, car park, forest, rooftop, beach or courtyard, we have the ultimate Anchorage Solutions and Enhancement Kits to ensure safety and comfort in all wind and weather conditions.

5. Delivery

After stringent quality checks of the poles, fabric and metalwork, your finished tipis are stamped with the Made In Britain marque of approval and are ready to go. We can arrange for delivery to your location should you not have the appropriate vehicles to collect.

7. Ongoing Support

When you purchase from The Tipi Company, you become part of our family.

As a family-run business, every customer who invests in our permanent and semi-permanent tipis becomes one of the family. We feel it is our duty to offer ongoing support to our customers to ensure their investment is well looked after for many years.

After the installation has taken place, you will be allocated an After-Sales Manager who will be there to support you as your tipi business grows.

WHAT OUR CUSTOMERS HAVE TO SAY

Our tipi manufacturing business takes immense pride in delivering exceptional products and services to a whole host of sectors. Here we give you a taster of the heartfelt stories of our delighted customers who have embraced our tipis as the focal point of their business. Their words are a testament to the exceptional quality and personalised service we offer. We take immense pride in sharing their stories, which echo the positive impact our tipis have had on their lives.

Explore their feedback and see why our brand is the trusted choice for outdoor structures.

At Kåtachiefs we pride ourselves on providing the best service we can, and the best service starts with using the best product on the market. Over the years we have been fortunate to have worked with tipis from rival manufacturers and every time we are glad that we chose The Tipi Company's tipis. From the basic components of pegs and pins to the poles, canvas, and crowns, the tipis produced by the Tipi Company are better engineered and finished to a higher quality. For us, it was a simple decision of choosing the best rather than settling for an inferior product.

KÅTACHIEFS
Robert Smith, Managing Director

We visited the Tipi Company and met with Gary and Stacey who were super helpful and gave us so much advice and information. Once we had decided on the configuration of Tipis that we wanted we ran it by them and they gave us again lots of advice and suggested amendments. From the moment we placed our order through to delivery and erection on site Stacey and Gary kept us updated at each stage of the manufacture and delivery. They in fact went over and beyond what I would class as excellent customer service and visited us on-site on many occasions to check how the groundwork was progressing and discuss the build. I cannot recommend the Tipi Company highly enough.

TIPIS AT RILEY GREEN
Lesley Yates, Owner

Scaldersitch Farm purchased baby tipis to add to our glamping offering. We have been very pleased with the quality and the willingness of the Tipi Company to adapt the product for our market. Working with the Tipi Company we created a special, and now very popular addition to our luxury Peak District glamping site. I cannot recommend the Tipi Company highly enough, the quality and service is second to none, and their whole team are a credit to the company, thank you Gary, Stacey and the Tipi Team!

SECRET CLOUD GLAMPING
Catherine Webster, Owner

We love working closely with The Tipi Company! For over 7 years now we have used their Tipis for our hire stock, they continue to develop and improve the Tipis and accessories on offer and are always available to advise and help us in a friendly and professional manner.

COUNTRY TIPIS
Richard Knapp, Director

We set up at the end of 2019, after a mad idea on our holiday in Lanzarote. We had our own outdoor wedding in 2018, and loved it so much we wanted to establish our own hire business together (Husband and wife team) We contacted a few manufactures prior to purchasing our tipis, but felt most welcomed by the Tipi Company therefore we chose them to be our only source of purchase in the industry. We only own the Tipi company products, and working with them both parties have bounced off some great ideas. Stacey always welcomes any queries and makes sure we get the support we need.

TIPIS IN THE PEAK
Megan & Jack Riley-Barber, Directors

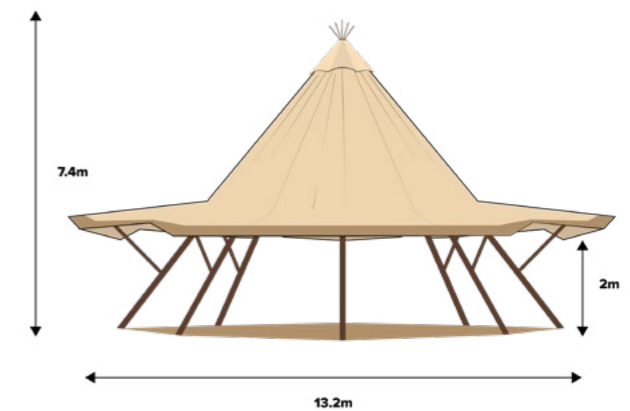

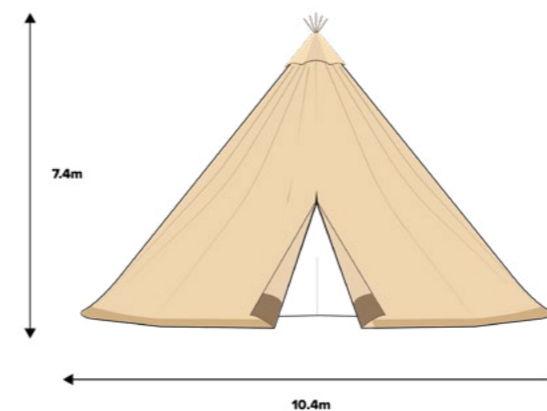

BIG HAT

The largest and most versatile tipi in our range – impressive and visually striking. With its unique ability to interlink together with another Big Hat or Midi Hat, this tipi can create an event space for many hundreds of guests.

Key Features

- All sides can be partially or fully lifted
- Link together with another Big Hat or Midi Hat to create impressive formations for large events
- Wide range of Enhancements can be added to the tipi to create an outdoor space suitable for use all year round, with roll up windows, wooden or glazed doors
- Suitable for all ground conditions with our range of Anchorage Solutions

Specifications

Lifted

Diameter	10.4m	13.2m
Total Height	7.4m	
Maximum Pole Length	8.25m	
Covered Area	83.7sqm	134.3sqm
Weight of Canvas	95kg	
Number of Standing People	80	100
Number of Seated People	96	136

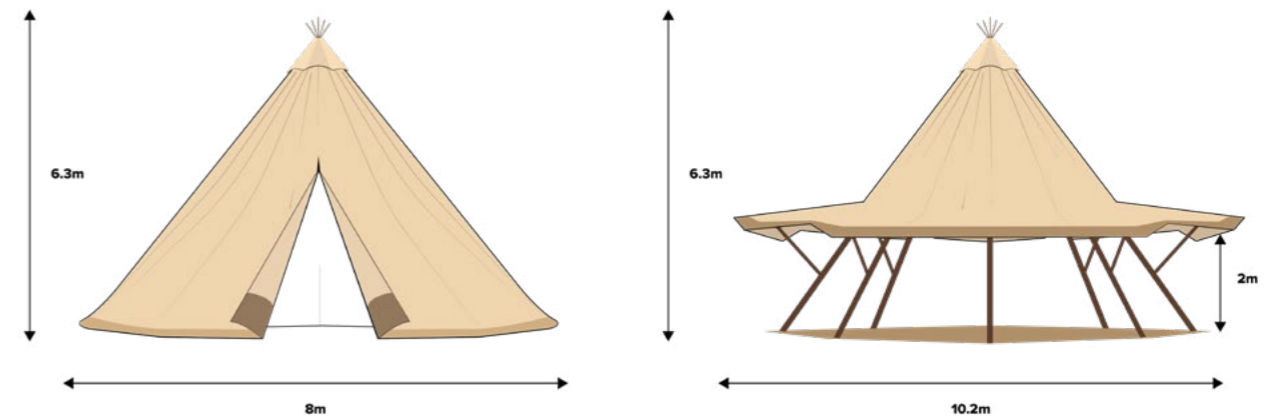

MIDI HAT

The perfect companion to its bigger brother, the Midi Hat measures 2m smaller in diameter than the Big Hat, whilst also offering the same flexibility and benefits. It can link to another to create larger formations, while also being an impressive standalone space that can lift and lower sides.

Key Features

- All sides can be partially or fully lifted
- Link together with another Midi Hat or Big Hat to create impressive formations for large events.
- Wide range of Enhancements can be added to the tipi to create an outdoor space suitable for use all year round, with roll up windows, wooden or glazed doors.
- Suitable for all ground conditions with our range of Anchorage Solutions

Specifications

Lifted

Diameter	8m	10.2m
Total Height	6.3m	
Maximum Pole Length	6.35m	
Covered Area	49.3sqm	81.2sqm
Weight of Canvas	85kg	
Number of Standing People	50	70
Number of Seated People	56	96

MIDI TIPI

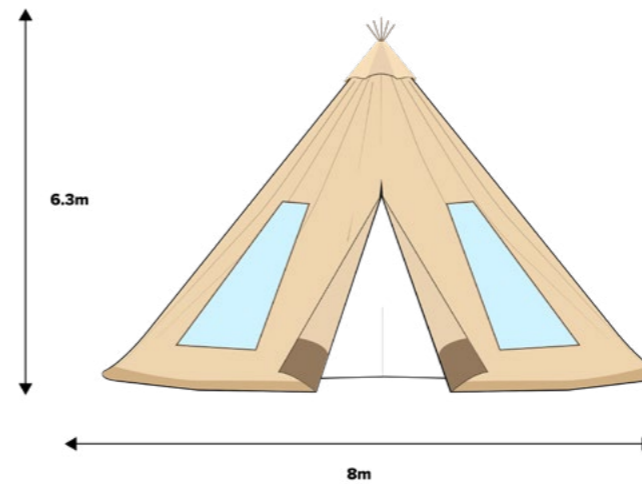

A best seller within the Education and Glamping sectors, our Midi Tipi offers a cosy inspiring space to relax and take in the outside world. With all sides closed down, our Midi Tipi is the perfect retreat come rain or shine.

Key Features

- Perfectly sized for a family of 2-6 glamping
- A fantastic standalone space that can accommodate larger classes of school children for forestry school, yoga and meditation
- An Entrance Porch can be added to elevate the entry point or to make it wheelchair accessible.

Price
£8,690

Diameter	8m
Total Height	6.3m
Maximum Pole Length	6.35m
Covered Area	49.3sqm
Weight of Canvas	46kg
Number of Standing People	35
Number of Seated People	56

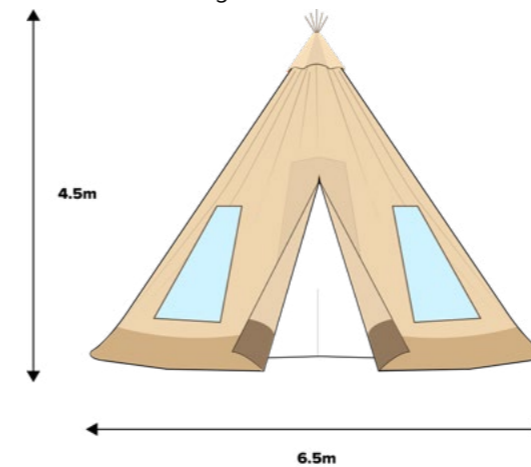

BABY TIPI

Aside from the name, our Baby Tipi is a sizeable outdoor space that is perfect for glamping sites, educational settings and permanent wedding & events venues as a **children's retreat**. It can be linked to larger formations via a tunnel, and can also receive an Entrance Porch.

Key Features

- Quick and easy to build – assembly time is under 45 minutes
- A quirky standalone space that can accommodate classes of up to 30 primary school children for forestry sessions, yoga and meditation
- An Entrance Porch can be added to elevate the entry point or to make it wheelchair accessible.
- Includes two clearview windows as standard to bring in lots of extra light.

Specifications

Diameter	6.5m
Total Height	4.5m
Maximum Pole Length	5.15m
Covered Area	32.7sqm
Weight of Canvas	35kg
Number of Standing People	15
Number of Seated People	24

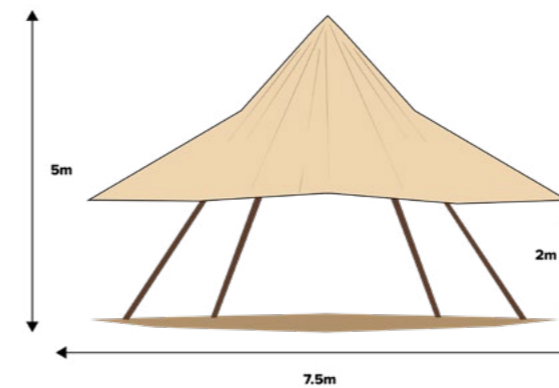

LITTLE HAT

Our Little Hat is a standalone shelter that is perfect for those with limited space. The Little Hat has been designed as an alternative for those who are looking for a shelter, rather than a fully-enclosed space.

Key Features

- A quirky, standalone shelter for guests
- Sides can be added at an extra cost, for protection from the elements
- Perfect space for welcoming guests for outdoor events
- Quick and easy to assemble

Specifications

Diameter	7.5m
Total Height	5m
Maximum Pole Length	5.7m
Covered Area	36.54sqm
Weight of Canvas	15kg
Number of Standing People	30
Number of Seated People	24-32
Height at lifted point	2m

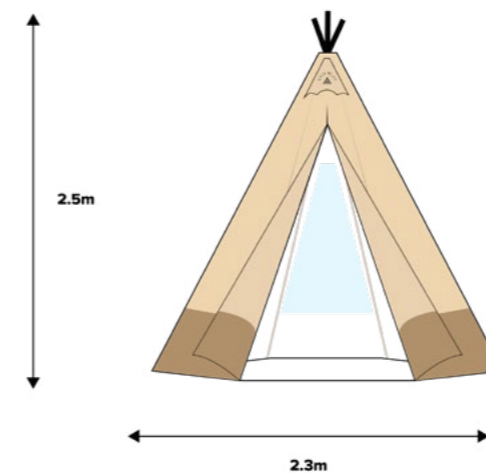

TINY PLAY

Expand children's imagination and encourage outdoor play with our Tiny Play tipi! A great addition to a fleet of large tipis, to act as an exciting children's play space during events.

Key Features

- Clear PVC glass window with Velcro tie backs
- Black PVC groundsheet finished with eyelets for pegging down
- Zip opening door with wooden toggle for easy access
- Finished in decorative binding
- Quick and easy to assemble

From

TIPI ENTRANCES

Our Enhancement Kits are a must-have to create the wow-factor at the entrance to the tipis or to maximise floorspace and panoramic views. Designed to fit perfectly into the lifted sections of the tipis, these panels can be rolled up in warmer weather to allow the outside in or zipped down to protect your guests from the elements.

Swap out our clear, roll-up windows for glazed wooden doors and windows for the added wow factor

Entrance Porch

Our Entrance Porch is one of our most popular accessories and includes a zipped canvas door as standard. For a grander first impression for a semi-permanent build upgrade to our Wooden Entrance Doors.

Our Entrance Porches are the ideal add-on to your standalone Tipi as they create a formal entrance into the space, instead of using just the zip on the side of the canvas. Used in larger tipi formations to create a formal exit to restrooms or catering areas.

Glazed Doors & Windows

New for this season we have launched the perfect addition to any permanent tipi installation - Glazed Doors & Windows.

With opening windows and the option to add a tunnel onto the front, they can be fitted into any of our Enhancements Kits, Entrance Porches or Panoramic Window sections. If you're looking for a luxurious finish, look no further!

Wooden Entrance Doors

The perfect finish for any event in a tipi, our Entrance walkway or Porch can be fitted with a pair of Wooden Doors that are stunning yet in keeping with the style of the tipis. The price includes the timber framework surrounding the doors with a canvas covering.

Panoramic Window Kit

Our Panoramic Windows are available in Clearview to allow your guests the opportunity to enjoy the surrounding scenery, they can be unzipped and rolled up to bring the outside in, then zipped back down to protect your guests from the elements.

They can be produced in canvas to provide headroom and a backdrop to a bar or band area.

The kit is inclusive of all frameworks and straps and completed with a pair of blanking panels in Clearview or canvas for either side to infill the lift of the tipi.

All-Terrain Anchor Solutions

For sites where our standard method of fixing using 750mm ground stakes isn't possible – such as car parks, courtyards or gravel grounds - we have designed a range of tipi ballast solutions for a resistant and secure tent, regardless of the terrain. Our uniquely designed SecureFix and BallastFix products allow you to operate the tipis safely, without the need to drive stakes into the surface.

Catering Tents

We offer two options of catering tent finished to ensure they blend into the formation seamlessly.

OPTION A

Pop up tent 4.5m x 3.0m. 50mm aluminium frame and lightweight canvas cover.

Pop Up Catering Tent with collapsible aluminium 50mm frame and lightweight canvas cover

Pop Up Catering Tent Package (includes 2 x Pop Up Catering Tent; 2 removable gutters)

OPTION B

Aluminium 2 bay box section 6.0m x 6.0m

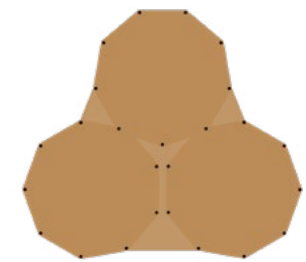

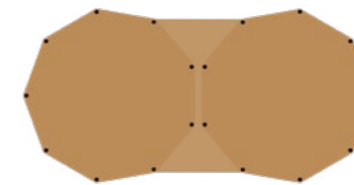

Extremely sturdy, ideal for long term install, covered in Fire Retardant beige PVC to compliment the tipis

We recommend using an Entrance Porch on the side of the tipi so that the catering tent can be pulled up close to the formation without the need to go outside.

LINKING

Our innovative linking systems seamlessly connect Big Hats and Midi Hats together, enhancing functionality within the spaces, and allowing larger events for hundreds of guests. Over the years we have refined our designs and engineered Linking Systems that are perfect for the variety of sectors we work within. Not only that, but the combination of our components ensure a totally weathertight solution that can stand the test of all adverse weather conditions, over a long period of time.

Our unique Roof Link Panel is our secret weapon – it hides all the link strapwork creating a seamless and stunning finish, prevents pooling during high rainfall and helps to protect the tipis during stronger winds. No other Linking System on the market can compete with ours as far as functionality and performance.

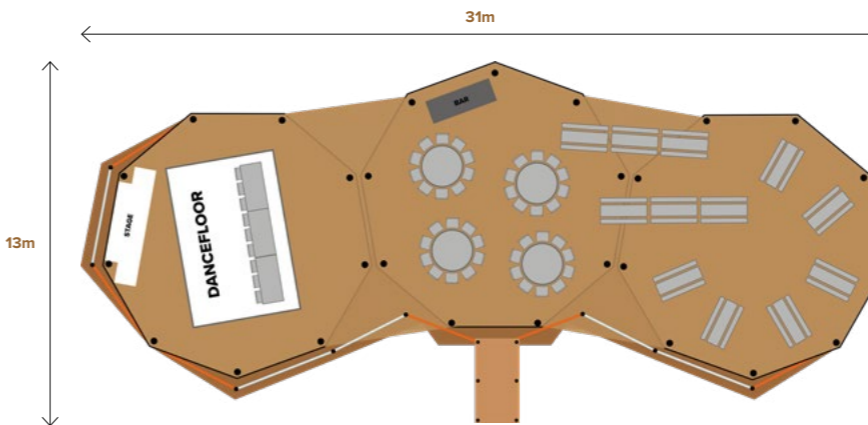

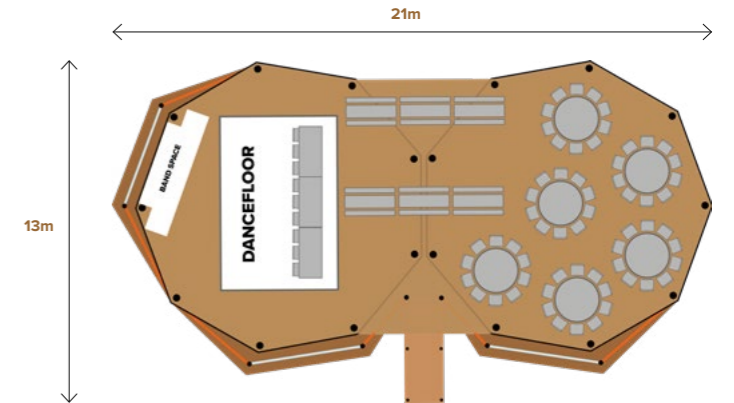

EXAMPLE FLOORPLANS

Our team of experts will help you design your perfect plan, below are our most popular designs.

2 Big Hats linked together

Using Enhancement Kit B

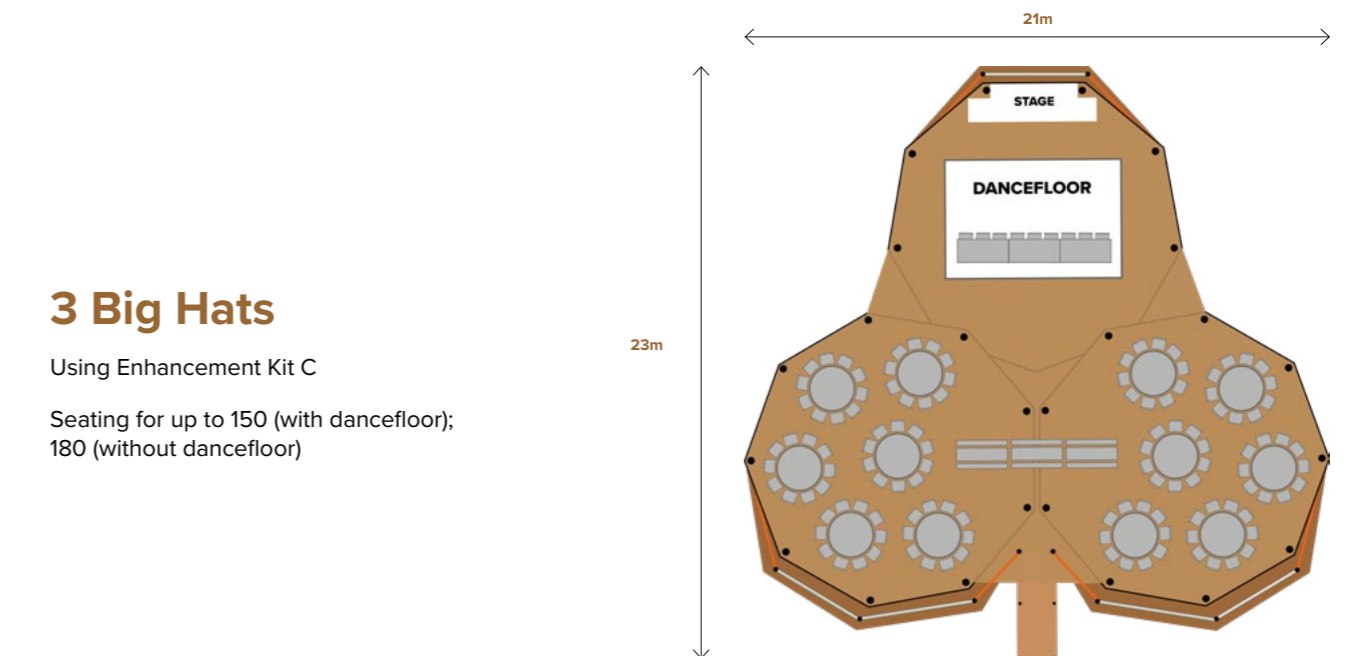

Seating for up to 120 (with dancefloor);
150 (without dancefloor)

COATED

We use the custom-made Coated Campshield fabric that took three years to develop. It is the absolute best canvas available for tipis, and is strong, breathable, moisture regulating and dirt repellent. The coating allows for easier cleaning and a better UV resistance than other canvases on the market.

FLAME-RETARDENT

Our fabric is a high-tech unique quattro blend of fibres, where the FR qualities are inherent to the fibres. It is the only canvas on the market to have this quality. It has a lifetime guarantee on its FR qualities and therefore does not need reproofing in the future. It also meets international standards for fire resistance.

FULLY WATERPROOF

Experience the ultimate protection with our premium coated waterproof canvas. Weather any storm while enjoying unparalleled durability and lasting quality. With our durable canvas, the rain can be pounding outside, yet inside is a tranquil haven.

OUR THREE CANVAS COLOURWAYS

Mocha Canvas

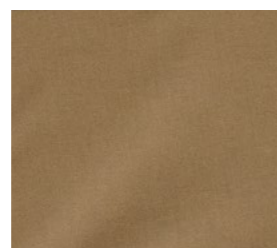

Forest Canvas

Sand Canvas

CONTRASTING MUDWALL COLOURWAYS

We reinforce the edges of our canvas tipis with military-grade, tear-resistant Cordura fabric. Developed specifically for the military, this robust fabric allows the strong tensioning of our tipis in various linked formations.
